

We would like to encourage you, as neighbors and friends, to votes YES for our children, our schools and our community in the upcoming election on February 13th.

This year, more than ever, with increased costs, it is important that we vote to renew this levy. We believe our community benefits by taking good care of our schools whether or not you have children of school age. Our school facilities are utilized by the pubic almost every day, year round, beyond the use by our local students.

Strong schools create a solid foundation upon which great communities are built. We take pride in our community and hope to keep our schools a place to be proud of. Please join us and vote YES to renew the Capital and Technology levy on February 13th.

Bob & Shannon Wilson
